

Data Science for Decision Making Program Student List

The Data Science for Decision Making Program (DSDM) at the Barcelona School of Economics (BSE) integrates key elements from Data Science and Economics to give graduates the ability to deal with all types of data and make the correct inferences from it.

A special focus of the M.Sc. will be in the use of Twitter data – both the course Text Mining: Models and Algorithms and the Networks course will make use of this data source. **As part of the Data Science for Decision Making (DSDM) program students will also need to conduct research for their M.Sc. thesis which might require access to the Twitter API for academic research.**

The following students are in the program:

First name	Last Name
Christina Elise	Anderson
Simón	Caicedo
Andrés Antonio	Couble
Ignacio Jesús Javier	Cuevas
Şeyma Aysu	Demir
Diego Esteban	Eslava Avendaño
Naga Leela Manohar	Gannavarapu
Marc Stefan	Hoeller
Bjoern	Komander
Alexandra Ninoska	Malaga
Philine Dorothea	Meyjohann
Claudia	Ochoa
Eszter	Pazmandi
Shereena	Salas
Mathias	Schindler
John Charles	Searight
Benjamin	Seimon
Niamh Eleanor	Sheehan
Sarah	Spiteri
Kalliope	Stassinis
Cristina-Gabriela	Susanu
Alejandra	Vlcaria
Andrés Felipe	Virgüez
